GuardianChain: Revenue & Compliance Deck (Charted)

This updated version includes visual summaries and a grant/investor-ready structure.

Revenue Model Breakdown

Capsule Mint: 70% Creator / 20% DAO / 10% Platform

Capsule Unlock: 50% Creator / 25% Referrer / 25% DAO

Yield: 90% Creator / 10% DAO

(Insert pie chart: file-NRgwvppobnxi2hqrvsE3JE)

DAO Treasury Flow

[Revenue Event] --> DAO Treasury

DAO Treasury --> Grant Programs

DAO Treasury --> Validator Incentives

DAO Treasury --> Compliance/Audit Fund

DAO Treasury --> Emergency Legal Reserve

Capsule Lifecycle Overview

- 1. Create capsule (media + metadata)
- 2. Sovereign AI scores capsule
- 3. Mint to chain + yield rating assigned
- 4. Shared or unlocked by others
- 5. Revenue flows to creator, DAO, referrer

(Visual to be added)

GTT Token Utility

- Mint + unlock gate
- Staking for yield multiplier
- DAO voting
- Sovereign AI & remix access

Compliance Statements

- GTT is not passive income; active capsule creation required.
- DAO-controlled treasury; public disclosures.
- KYC tiers: view-only, light KYC, full KYC.
- Global compliance readiness: US / EU / FATF
